

Earning Academic Credit at the Embedded Systems Conferences (ESC)

Build a Better Future

Through an innovative global partnership between the University of California, San Diego-Extension and TechInsights, attendees at the Embedded Systems Conferences (ESC) can earn university credits.

All ESC workshops have undergone an extensive review and approval process by UC San Diego's renowned [Jacobs School of Engineering](#) prior to offering credit's to attendees, adding world-class academic rigor to the technical content.

How do you earn Academic Credit?

- 1. Attend workshops at the Embedded Systems Conference**
 - Attend any workshops at any of the Embedded Systems Conferences. All workshops are eligible.
 - A minimum of 6 hours of workshops is required to earn 0.5 units of credit. You can do this in any combination. Be sure to document which workshops you attend.
- 2. Enroll online at UC San Diego-Extension**
 - Visit the extension.ucsd.edu/embedded
 - Click the "Enroll Now" link under the conference information
 - Proceed through the enrollment process
 - Pay fee of \$25 (per 0.5 units)
 - Conference Reference Number: ECE - 40231
- 3. Evaluation**
 - Submit a 250 word essay on each workshop attended
 - Email essay to the Program Representative in the Engineering department at UC San Diego, Extension.
 - The essay will then be graded by a faculty advisor.
 - Once grade is assigned, credit will be awarded

How can credits be applied?

- Enhance your resume
- Stand out as a more competitive job candidate
- Apply up to 6 units of credit to two Embedded Engineering Certificate Programs at UC San Diego, Extension:
 - [Embedded Computer Engineering](#)
 - [Embedded Computer Software](#)
- Apply towards other related University of California, Extension certificate programs
