

# C4ISR Program

Command, Control, Computers, Communication, Intelligence, Surveillance and Reconnaissance are key to military strategic and tactical command structure. This program will help you gain an understanding of the application of FORCEnet, the Joint Capabilities Integration and Development System (JCIDS) and the use of multi sensor integration.

Topics of study include the capabilities of Integrated Shipboard Network Systems (ISNS), the Navy/Marine Corps Intranet (NMCI), and the follow-on Consolidated Afloat Network and Enterprise Service (CANES). The student will gain a basic understanding of the Combined Enterprise Regional Information Exchange Systems (CENTRIXS) that supports coalition force interoperability.

## Courses

- [C4ISR I: C4ISR Overview](#)
- [C4ISR II: Introduction to Integration](#)
- C4ISR III: Advanced Integration

## Benefits

- Expand your academic and professional technical depth and breadth
- Create new job opportunities within and outside of your organization
- Expand your professional network
- Create new business opportunities within DoD
- Designed for working professionals, this program affords the student an opportunity to earn a certificate in one year
- Taught by professional instructors with cutting-edge academic and workplace domain experience

## Who Should Attend?

- Systems Engineers
- Technicians
- Software Engineers
- Program/Project Managers
- Technical staff
- System Test and Evaluation Engineers

## Instructor

**Joe Bulger** earned his MSPM while serving with the Naval Sea Systems Command, Washington D.C. Currently he is the Business Development Manager for Navy C4ISR programs with EDO Corporation. He's the AFCEA, San Diego Chapter, Vice President and the Chair of the AFCEA-SPAWAR C4ISR Symposium for 2007.

## Program Schedule

This program will begin every Spring quarter. The courses must be taken in the order listed.

- [C4ISR I: C4ISR Overview](#)  
(offered every Spring)
- [C4ISR II: Introduction to Integration](#)  
(offered every Summer)
- C4ISR III: Advanced Integration  
(offered every Fall)

## Prerequisites

- [Defense Technology Overview](#)

**NOTE:** This course is required if you want to earn the Certificate of Completion in C4ISR. You may take this course at any time during the course of your program.

## How can you apply credit?

A certificate of completion will be earned when all the courses in this program are completed in addition to a 1-unit Defense Technology Overview course (offered every quarter). This can be completed in a one-year period.
