Clear to Induction Notice

Per the California Commission on Teacher Credentialing, all Clear programs must address 2015 General Education Induction Program Preconditions and Standards, effectively transitioning from standards for the Clear Credential issued in 2008. The state requires that all programs offering the Clear Credential must transition fully to Induction by Fall 2017.

In anticipation of these changes, the Education Department at UC San Diego Extension last accepted applications and admitted candidates to the Clear Credential program in June 2017.

Information about the new Induction program is now available on our website at extension.ucsd.edu/induction.

Frequently Asked Questions

Current Clear Candidates

How long do I have to complete my Clear Credential program?
If you are a current candidate in our Clear Credential program, you will have no more than three years to complete required coursework. After that time, courses in the Clear Credential program will no longer be offered. Summer Quarter 2020 is the last quarter that these courses will be available.

What happens if I had requirements that were outside of coursework (i.e. Subject Matter Competency, Basic Skills Exam, EL Authorization)?
As long as you have completed your required coursework you can use the full 5 years from when you were admitted to the program to complete any additional requirements.

Future Induction Candidates

When is the earliest I can start the Induction program at UCSD Extension?
Fall 2017 is the first quarter that the Induction program will be offered.
