For the summer quarter, all Osher classes will be offered online via Zoom videoconferencing. By enrolling in the Monthly or Quarterly Membership, you will have access to LIVE lectures every day, which will include question and answer sessions with our distinguished faculty speakers, art historians, community leaders, and others. You will also be able to participate in our seminars and discussions of current events. Individual class registration is not required. Members can attend all scheduled classes or pick and choose the courses that fit their individual schedules. An Online Affiliate Membership will give you access to the video recordings of our lectures from this quarter and those recorded previously, but does not include participation in our daily program.
